REPORT.

Since the issue of the Report of 1899, the Training School course has been extended to three years. During the first and second years the subjects of anatomy and physiology, the observation of symptoms, treatment, and nursing of both medical and surgical patients are taught by two physicians, who are paid instructors to the School. Part of this teaching is done clinically in the Hospital wards, in sections of ten pupils. It is intended that all the theoretical instruction shall be given is these first two years, and that the third year shall be devoted to executive work and special training. The pupils receive three months' obstetrical training at the Sloane Maternity and the New York Lying-in Hospitals.

The course in cooking, which formerly consisted of ten practical lessons, has been changed to a several weeks' course for each pupil in the Diet Kitchen, under the direction of Miss Marshall, a graduate in Domestic Science, Pratt Institute, Brooklyn. The principles of diet and cooking are thus learned thoroughly by each pupil. All the broths, jellies, custards, etc., used daily in the wards, have been made by the nurses since October, 1902.

There has been no change as yet in the method of the lessons in massage.

Since the completion of the new Surgical Amphitheater, the nurses have had the privilege of the training as assistants at operations, in the sterilizing room, and in giving ether.

For one year an interchange of nurses with the Children's Hospital was arranged; but the addition of a much-needed ward for children to our own Hospital made it no longer necessary to send our pupils elsewhere for this training. We were very glad, however, that the management of the Children's Hospital was willing to continue to send to us four pupils for experience in the nursing of adults.

The addition to the Thayer Building, which includes a gymnasium, a roof garden, study and reception rooms, and an elevator, has been greatly appreciated, as it has given the nurses better facilities for recreation, and has also allowed us gradually to increase the number of the Nursing Staff.

In 1899 an assistant superintendent of the Training School was appointed; and in 1902 a second assistant was found to be necessary, whose chief duty was to be the instruction of probationers. It is now the custom to admit the probationers in classes of twenty, twice each year. They are taught the elements of nursing and ward duty during the first month of probation, before they are assigned to definite ward work. Last year a course in gymnastics was begun for the probationers, which was taught gratuitously by Miss Charlotte E. Maxwell.

The graduates cannot fail to appreciate the improvement in the present course of training, as briefly outlined, and its great value to the pupil. For this our sincerest thanks are due the Advisory Committee of the Training School, whose time and thought have been given to the elaboration of this course; and to the Training School Committee, and to the Board of Trustees of the Hospital, who, by their acceptance of the plan, made it possible as soon as it was proposed.

PAULINE L. DOLLIVER,
Superintendent Training School.

Post-Graduate Course.

A two months' Post-Graduate Course is open to the graduates of this Training School. The course consists of two months' surgical work, or of two months' medical work, or of one month each of medical and surgical work, as the graduate prefers.

Students must provide themselves with the uniform of the School. They live outside the Hospital, pay no fee, and receive no pay for this course. Their hours of duty conform to those of the pupils of the School, and they act as assistants in the wards.

Those who wish to take this course should apply to the Superintendent of the Training School, and state definitely what experience they wish to have, and the time when they could most conveniently take the course.

During the summer months there would be more openings for graduates; but, so far as possible, appointments will be made to suit the convenience of the applicants.

LIST OF GRADUATES.

Graduates are requested to report changes of address to the Superintendent of the Training School by December 1st.

CLASS OF 1875.

Name.	*Occupation.*	*Residence.*
Emerson, Alice C.		
Kelley, Mrs. Mary Ann	Now Mrs. M. Johannesson	Boston, Mass.
